Hello Friend:

Thank you for your purchase of 1UP Retro's Nintendo World Championships Gold Cart (replica). We put great detail and pride into our products. We hope you enjoy this game cart.

Please note:

DIP switch number 3 should be in the up/on position in order to play with the same 00:06:21:00 time limit used in the competition.

**Also, be aware that controller 2 starts the game.**

Contact us if you have any problems or questions.

We have also provided **three** versions of our special 1UP Retro-designed label. One is a full sheet. One is paper and the other is vinyl.

If you use the full sheet on the gold cart, the residue will not come off and could damage the cartridge, so please, only use this one if you are 100% sure that is the label you want to use.

As for the other two labels — the vinyl triangle and the paper one — you will need to cut out the paper one; the vinyl one is pre-cut.

Enjoy and as always ... GAME ON!

Regards,

Jeremy Marshall
